Press release: #02

Evento: WSK Super Master Series - Rd 1 - Adria Karting Raceway

## ENGINES AT THE START, THE 2018 SEASON BEGINS IN ADRIA

The Kosmic Racing Department is ready for the first major engagement that will see our drivers on track on the next weekend of 3<sup>rd</sup>-4<sup>th</sup> February for the 1<sup>st</sup> round of the WSK Super Master Series

With six drivers at the starting grid, the Kosmic Racing Department is preparing to face **the first round out of four) of the WSK Super Master Series.**

For the **KZ2** category we will find on track **Axel Bengtsson** and **Oliver Rasmussen.**

In **OK class** the two drivers of the Racing Department will be **Roman Stanek** and **Viktor Gustafsson.**

**Rafael Camara** and **Hadrien David**, finally, will be lined-up in the "**Junior**" class.

Attending, but playing the role of coach, will be **Patrik Hajek**, who will still wear race suit and helmet starting from the CIK-FIA events.

For the weekend we expect rather **harsh temperatures**, always below 10°C: an excellent test to check and further develop the material, even in these low grip conditions. As in the last season, the **Mercury S chassis**, equipped with **Vortex engines**, will be available for the team: a technical setup that has already proven itself as able of optimally adapting to any track conditions.

The WSK Super Master Series will have the **live streaming media coverage** on the final day, while any stage of the race can be followed in **live timing** on the official [www.wskarting.it](http://www.wskarting.it) website.
