Evento: 3° rd Europeo OK e OKJ – Ampfing (Germania)

## THE KOSMIC RACING DEPARTMENT IN GERMANY FOR THE THIRD ROUND OF THE EUROPEAN CHAMPIONSHIP FOR THE OK-OKJ CATEGORIES

On the weekend of June 14<sup>th</sup>-17<sup>th</sup>, the Kosmic Racing Department will be on track on the German Ampfing circuit, seat of the third round of the FIA Karting European Championship for the OK-OKJ categories.

Just twenty days after the last British race, the **FIA Karting European Championship** for the **OK and OKJ single-speed** categories, is ready to start the engines again. This time it will be the **Ampfing circuit, in Germany**, to offer the show of the great **German Kart Grand Prix**, the third round scheduled for the 2018 season calendar.

On the occasion of the **German Kart Grand Prix** event, the **Kosmic Racing Department** is ready to go to the attack of the standings of the Championship: all eyes are on the **OK category** and on **Roman Stanek**, winner of the **first round of Sarno** but without gaining good results in **England** for a collision at the start. The Czech driver, therefore, is called to put on track all his talent to aim for the **final victory**, only 16 points far from the leader of the standings.

Next to him there will be **Viktor Gustafsson**, moreover, in the OK category David Rozenfeld will race for the first time with our Kosmic colors, while in the **Junior category** there will be **Rafael Camara, David Hadrien** and **Jak Crawford** on track with our **Kosmic Mercury S** chassis powered by **Vortex**: the Brazilian driver is just back from a good weekend on the English land, where he hit a great sixth place in the decisive race. His goal is therefore to gain a position in the Top 5, while that of the French driver is basically to find those **good feelings** and the **competitiveness** that had allowed him to achieve success in the **third WSK round in Muro Leccese**. Finally, Crawford will have the opportunity to re-measure his skills in an international competition, after what he has done in the last round at **PF International**.

The competition on the **German circuit of Ampfing**, seat of the **third round** of the **FIA Karting European Championship** for the **OK and OKJ** categories, will have the live timing service through the <http://www.apex-timing.com/live-timing/cik-fia/index.html> website, since the free practice of Friday. The qualifying heats and the Sunday finals, however, will be broadcast live on the <http://www.cikfia.tv/> website.
