Gabriel Bortoleto was in evidence in Sarno and he earned the podium of the WSK, excellent performer of the OK where he managed to be among the major protagonists and conquered a nice 3rd place. It didn't go well for **Pedro Hiltbrand** instead, after being on the podium in La Conca during the previous round. In Sarno, **Hiltbrand** showed an

The Series was won by Andrea Kimi Antonelli.

The FIA Karting international season will start on April 21st in Angerville, France, with the first round of the OK-OKJ European Championship.

Gabriel Bortoleto (OK): *"I am very happy about my first podium in OK, but we are especially satisfied with our speed. After the positive weekend in Muro Leccese, also here in Sarno on a track with different features, our chassis proved to be competitive in all the race phases. We tried a lot in view of the European Championship and we are all very satisfied with the work done."*

Paolo De Conto (KZ2): *"It was a very productive weekend from the technical point of view. We could have won or go on the podium, but it wasn't the most*

important thing today. What counts is that our technical pack chassis-engine works well and this will allow us to be protagonists in the FIA championships."
