

PRESS RELEASE

About 240 drivers at the WSK Super Cup of Franciacorta on September 8th

The WSK Super Cup event to be held from September 4th to 8th will be valid also for the Italian ACI Sport KZN Championship and ACI Sport National Trophy for categories MINI, OK-N and OK-NJ.

Maglie (ITA), 30.08.2024

The WSK Super Cup on September 8th at the Franciacorta Karting Track is announced with excellent driver participation. Organized by WSK Promotion, this single-event race is also valid for the Italian ACI Sport KZN Championship and the ACI Sport National Trophy for the MINI, OK-N and OK-NJ categories.

Registrations close soon, on September 1st, but there are already about 240 drivers entered in the MINI Gr.3 and Gr.3 Under 10 categories, and in the KZN categories of Rookie, Under, Over, and Over 50, in addition to the two federal categories OK-N and OK-N Junior.

The third edition of the WSK Super Cup.

This is the third edition of the WSK Super Cup, which presents several new features, starting with the race venue: the Muro Leccese circuit, which has always been the home of WSK Promotion and the scene of great battles, will pass the baton to Franciacorta, another circuit that in a very short time has carved out a significant space in the context of international competitions. Furthermore, the MINI, present in the first two editions of the WSK Super Cup, will also make room for the OK-N and OK-N Junior, two classes that have been welcomed with great enthusiasm in the WSK paddock and are also competing for the ACI Sport National Trophy. The show will be further enriched by the presence of the KZN, which will elect the winners of the Italian ACI Sport KZN Championship.

Free practice.

Free practice will kick off on Wednesday, September 4th with the exception of KZN that will make it to the track on Thursday, September 5th.

Live on TV.

The final phase on Sunday, September 8th will be broadcast live on Facebook Live Streaming on the WSK Promotion page, on the WSK and Motorsport.com websites, YouTube, and on the Vimeo platform.
