

WSK PROMOTION UNVEILS ALL THE DETAILS OF THE 12 EVENTS OF 2019: FROM RACE FORMATS, ENTITLED CATEGORIES OF EACH EVENT, TYRES AND FUEL PROVISIONING, TO THE ELTO-WSK SILENCER FOR 60 MINI. OVERNIGHT CLOSING EVENT IN ADRIA FOR WSK EURO SERIES.

MAGLIE (LECCE, ITALY), DECEMBER 11TH, 2018

WSK PROMOTION DEFINED ITS 2019 CALENDAR.

The 2019 racing calendar of WSK Promotion has been defined with its 12 International Karting rounds. The program features three series having from two to four rounds, two single-race events and a winter testing session that will cover the whole solar year from January to November. Entitled categories are the usual 60 Mini, OK, OK Junior and KZ2, that will alternate with each other throughout the season: KZ2 will be present at 6 of 12 events, while the other 6 events will have a new racing program.

THE NEW RACING FORMAT.

WSK racing weekends will not have the same format in the new season that will get underway in less than two months. The events with all the four classes on track will keep the usual format with Prefinals and Finals for all categories, while those events without KZ2 will see 60 Mini and OK Junior running one Final B each, open to all the drivers that could not qualify for the Final in Prefinal. Another novelty will be the summer overnight race at the Adria Karting Raceway that will close the four rounds of the WSK Euro Series on June 30th.

TECHNICAL REGULATIONS FOR 2019.

New technical regulations have also been devised. 60 Mini and OK Junior will fit Vega tyres, the latter will have an Option compound; OK and KZ2 will employ Bridgestone Prime tyres instead, while fuel provisioning will be done by Panta. 60 Mini will also adopt a unique silencer to achieve a better control of the category. The fitted unit will be made by Elto and marked by WSK. The producer will make it available starting from January 15th at the price of Euros 80,00.
